

FIELD VISIT TO HIRA SUGARS SANKESHWAR

The Department of Community Medicine in association with Organon PG department conducted a field visit to Hira Sugars Sankeshwar on 6/12/2022. The authorities of the industry showed the various sections of sugar factory and the various processes involved from crushing to formation of sugar granules. They also showed how the waste bagasse is utilized in generating electricity. They also explained the various precautions taken in the industry to prevent the workers from suffering occupational Hazards. It was a great learning experience to the students.

The whole event was organized by Dr V.R. Kulkarni, Dr. Kiran Patil & Dr . Manjunath Oulkar.
