

SHAIKH CENTRAL SCHOOL

EDUCATIONAL VISIT TO ADITYA MILK, BAILHONGAL

Students of Grade 8 and 9 from Shaikh Central School had an enriching educational visit to Aditya Milk Plant, Bailhongal. The visit was organized to provide students with practical knowledge about milk processing, packaging, and quality control systems.

The students were accompanied by Vice Principal Mrs. Deepali Bhosale, along with teachers Ms. Salina, Ms. Jyoti, and Ms. Nazhat. During the visit, students observed various stages of milk processing — from collection and pasteurization to packaging and distribution. The staff at Aditya Milk explained the advanced technologies and hygiene standards maintained to ensure product quality and safety.

The visit offered students valuable insights into the dairy industry, its functioning, and the importance of maintaining cleanliness and quality in food production. It was a highly informative and interactive experience that helped bridge the gap between classroom learning and real-world application.

The students returned with great enthusiasm, having learned about the processes that bring milk and dairy products from farm to table.
