EXPLORA 2025 – INTERNATIONAL HOMOEOPATHIC CONFERENCE

The Explora 2025 – International Homoeopathic Conference, organized by Father Muller Homoeopathic Medical College and the Global Homoeopathy Foundation in association with the Central Council for Research in Homoeopathy, was held on the 14th, 15th, and 16th of November 2025. I had the privilege of attending this three-day academic event, which proved to be highly insightful, enriching, and meticulously planned.

The conference brought together academicians, researchers, clinicians, and postgraduate scholars from various institutions, offering deep insights into Homoeopathic research, clinical advancements, and educational methodologies.

One of the highlights was the **OSCE Workshop in Organon of Medicine**, which provided sensitization on objective assessments in homoeopathic education. The workshop was interactive, systematically structured for both teachers and students.

I had an opportunity to present a paper, titled **HOMOEOPATHIC MANAGEMENT OF CHRONIC KIDNEY DISEASE WITH ACUTE PERIANAL ABSCESS AND MULTIPLE CO-MORBIDITIES – A CASE DEMONSTRATING DYNAMIC RESTORATION OF VITAL FORCE**. The interaction with the judges encouraged critical thinking and academic dialogue adding immense value to my knowledge.

Overall, Explore 2025 served as a platform for meaningful learning and contributed positively to continuous academic growth.

I express my appreciation to A.M. Shaikh Homoeopathic Medical College, Hospital & Research Centre for the deputation and for providing me the opportunity to gain exposure on an international platform.
